LOCATION:

Vienna City Hall

Friedrich-Schmidt-Platz 1

Entrance: Lichtenfelsgasse 2

Feststiege 1

1010 Vienna

All BIO-Europe Spring attendees are cordially invited to join us for the welcome reception. You will be able to pick up your name badge at the welcome reception between 19:00-21:00.

Friedrich von Schmidt designed and built Vienna's City Hall, the most important secular building in the neo-Gothic style in the city, between 1872 and 1883. It is the official seat of the Mayor and the meeting place of the city senate/provincial government and the Municipal Council/Landtag.

The City Hall is a building of superlatives: The height of the tower is 97.9 m, plus the so-called "Iron Rathausmann," which has become a symbol of Vienna. Over 30 million bricks and more than 40,000 cubic meters of natural stone were used. The Arkadenhof of City Hall is one of the biggest inner courtyards in Europe, and Festival Hall is 71 meters long, 20 meters wide and 18.5 meters high. If the fire authorities were to allow it, 1,500 couples could dance the waltz here at the same time.

Please note: The registration desk will be open all day.

Continental Breakfast

07:45 - 09:00
Networking

Level 0, Hall A

The perfect pitch: Do you have what it takes to win over investors?

09:00 - 10:00
WORKSHOP 1

Level 1, Schubert 4

What you have to say in 30 seconds could mean the difference between a meeting with an investor and a door closed in your face. Win a one-to-one meeting with a leading life science private equity investor. Members of the audience will have 30 seconds to give their elevator pitch to a star-studded panel of seasoned industry investors. The top picks will be selected for a second round that includes two minutes of presentation and/or Q&A time with the judges. First and second-place winners will receive a full 30-minute private follow-up meeting with the panelist of their choice. Judges will receive a written summary of all participant pitches and their scores, should they wish to follow up on their own. All are welcome: entrepreneurs, service providers, job seekers, executives and more. Audience preparation notes: Participants will be judged on the quality and effectiveness of the overall 30-second pitch. Remember, the primary goal of an elevator pitch is to spark interest for a follow-up meeting. Pre-workshop coaching is available from the moderator (contact: doug@macbiocom.com). Practice, practice, practice!

Participants

Moderator: Douglas MacDougall - Managing Partner, MacDougall Biomedical Communications

Panelist: Jasper Bos - Senior VP and Managing Director, M Ventures

Panelist: Roel Bulthuis - Managing Director, INKEF Capital

Panelist: Tim Haines - Managing Partner, Abingworth

Panelist: Christian Jung - Principal, Wellington Partners Life Sciences

Panelist: Mathieu Pieronne - Investment Manager, Andera Partners

Panelist: Elizabeth Roper - Partner, Epidarex Capital

EBD Academy Buzz Session: Out-licensing presentations: One is not enough

09:00 - 09:45
WORKSHOP 2

Level 1, Schubert 6

Effective communication is one of the most important factors associated with successful out-licensing strategies. It is vital in securing you meetings, conveying your message and outlining your aims. However, too many company executives try (and often fail) to secure meetings with prospective licensing partners, in part because their communications (presentations, meeting request text, emails, etc.) are poorly designed, poorly written, and rarely customized.

In this buzz session, we will focus on how to craft out-licensing presentations that communicate effectively. Topics covered during this presentation include:

- Why more than one presentation is necessary
- The number and structure of these out-licensing presentations
- Outlines and examples of each kind of presentation...and when to use them
- How to craft meeting text that increases your chances of a meeting at a conference
- Why "crosschecking" is critical for starting your partnering activities early

Attendees will leave this session with a comprehensive understanding of how out-licensing presentations should be developed, structured and delivered. After attending, you will increase your chances of securing meetings with potential partners at licensing conferences and beyond.

Participants

Moderator: Carlos N. Velez - Founder and Managing Partner, Lacerta Bio BD&L

One-to-one meetings

10:00 - 18:30
Partnering

Level 0, Hall A

Please note: One-to-one meetings will take place all day depending on your partnering schedule.

Power up partneringONE: Essentials (plus Experienced)

10:00 - 10:45
Power up partneringONE

Level 1, Business Suite 1

This session is for delegates new to partnering. What can you expect from partnering, and what do others expect from you? Principles around timing, human nature, and partnering etiquette will be applied to the partneringONE process. The first 30 minutes will give you a clear understanding of tactics to generate the best ROI from partnering, at this and future events.

Those who stay for the full session will also hear the content from the Power up: Experienced session. The second half will cover methods for collaborating with colleagues, saving time, increasing response rates and acceptance rates, based on leveraging partneringONE's new power features.

This session is being offered multiple times during BIO-Europe Spring. Each session is limited to 20 people. Please reserve your seat by adding the session to your personal agenda. If you can't attend a session, drop by the partnering help desk with any questions.

Participants

Speaker: Lisa Methley - Senior Director, Online Strategy, EBD Group

Welcome and Opening Remarks

10:45 - 11:15
Plenary

Level 0 - Lehar 3/4

Participants

Speaker: Pam Putz - Managing Director Europe, EBD Group

Speaker: Margarete Schramböck - The Minister, Federal Ministry for Digital and Economic Affairs

Speaker: Peter Hanke - Executive City Councillor of Finance, Business, Digital Innovation and International Affairs, City of Vienna

Speaker: David Thomas - Senior Director, Industry Research and Analysis, Biotechnology Innovation Organization (BIO)

Opening Plenary Discussion: Time to turn the ship: Exploring underserved therapeutic areas

11:15 - 12:15

Plenary

Level 0, Lehar 3/4

Therapeutic areas outside of oncology, chronic diseases and CNS spaces tend to be afterthoughts in many discussions about biotech growth. Underserved therapeutic areas offer exciting possibilities for future development however. These spaces are characterized not only by small patient populations but also by patients with poor access to healthcare, by mismatched financial incentives, and high incidence in unfamiliar areas of operation. Often, these areas have some combination of all four of these features and so different kinds of partnerships and development plans are required. This panel will identify the top underserved therapeutic areas, explore some of the current efforts to address them and the partnerships that are proving to be effective. The panelists will address potential areas of future growth and what needs to happen in the industry, through policy, research, and funding to bring biotech solutions to underserved therapeutic areas.

Participants

Moderator: Amy Schulman - Partner, Polaris Partners

Panelist: Michael Crowley - Head, BD for Pharma Research and Early Development, Roche Pharma Partnering

Panelist: Danielle Friend - Director, Science and Regulatory Affairs, Biotechnology Innovation Organization (BIO)

Panelist: David Rossow - Founding Partner, Strategic Investment Fund, Bill & Melinda Gates Foundation

Panelist: Jonathan Wang - VP, Head of Business Development, Zai Lab

Luncheon

12:00 - 14:00

Networking

Seated Luncheon – Level 0, Mall
Grab & Go Lunch – Level 0, Hall A

Who wins the seat when investing in European biotech companies?

13:30 - 14:30

Business Development

Level 1, Schubert 1/2

Participants

Moderator: Annegret de Baey-Diepolder - Venture Partner, Life Sciences Department, Seventure Partners

Panelist: Roel Bulthuis - Managing Director, INKEF Capital

Panelist: Laia Crespo - Head of Europe, Sanofi Ventures

Bruno Montanari - Partner, Seroba Life Sciences

Panelist: Gilles Nobécourt - Partner, Andera Partners

Evolving biopharma landscape in the Asia-Pacific

13:30 - 14:30

Spotlight

Level 1, Schubert 4

The 21st century goldrush: With record-breaking deals in the past two years, partnering and investment opportunities in the APAC region continue to attract opportunists seeking their fortunes in the biopharma sector. Novel business models are being developed to create efficient ways to fund and develop innovative technologies and new products at a rate never witnessed before. How are companies, investors, accelerators, and other stakeholders working together to advance the field? What cross-border opportunities are enabling treatments to be developed more quickly and more broadly? Organizations that are breaking the mold and cashing in on the new opportunities share their strategies for success.

Participants

Moderator: Robert Narquizian - Managing Director, ChinaBio® Group

Panelist: Nares Damrongchai - CEO, Thailand Center of Excellence for Life Sciences

Panelist: Amy Nguyen - Head, Business Development, GreenLight Clinical

Panelist: Rajan Puri - Head, Business Development North America, CMAB Biopharma

Emerging opportunities for investment and partnering in “metabesity”

13:30 - 14:30

Therapeutic

Level 1, Schubert 5

Despite increases in life expectancy over the last century, healthspan—time spent living without chronic disease—has not significantly increased and remains a driver of immense personal and economic costs. Growing evidence has linked common metabolic roots to the aging process and multiple chronic diseases, collectively referred to as metabesity. Presently, targeting metabesity indications requires first pursuing established gateway indications—T2DM, obesity and, more recently, NASH, all of which come with their own development, regulatory and market access challenges. Nevertheless, a new wave of biotech companies with promising assets is targeting healthspan and other metabesity indications. A wide variety of strategies are being used: pursuing initial orphan indications, novel efficacy composites, and advanced computational tools, including artificial intelligence. Join our panel as we discuss prospects and opportunities for investing and partnering in metabesity programs.

Participants

Moderator: Danielle M. Marra - Associate Principal, Cello Health BioConsulting

Panelist: Sree Kant - Head, Business Development, Life Biosciences

Panelist: Tomas Landh - Innovation Sourcing VP, Senior Principal Scientist, Novo Nordisk

Panelist: Thomas Seoh - President and CEO, Kinexum

Pharma Company Presentations

13:30 - 17:00

Company Presentations

Level 0, Lehar 3/4

14:00–14:15 – **Bristol-Myers Squibb** – Paul Biondi, Senior Vice President, Strategy and Business Development

14:15–14:30 – **Roche Pharma Partnering** – J.C. Lopez, Business Development Associate

14:30–14:45 – **Bayer** – Christoph Geserick, Director, Early Licensing & Transactions

14:45–15:00 – **Johnson & Johnson Innovation** – Guenter Huhle, Head of JLABS EMEA

15:00–15:15 – **AbbVie** – Joachim Vogt, Director Search & Evaluation Western Europe

15:15–15:30 – **Sanofi** – Olivier Reinhard, Head of Business Development & Licensing Transactions – China & Emerging Markets

15:30–15:45 – **MSD** – Phil L'Huillier, Head of Business Development, Europe & Middle East

15:45–16:00 – **Amgen** – Samantha Palmer, Director, Business Development

16:00–16:15 – **Eli Lilly and Company** – Johnston Erwin, Vice President, Corporate Business Development

16:15–16:30 – **Boehringer Ingelheim** – Dr. Guido Boehmelt, Director External Innovation, Research Beyond Borders and Silke Hobbie, Global Head of Respiratory Business Development & Licensing

16:30–16:45 – **Merck** – Philippe Lopes-Fernandes, SVP, Global Head of Business Development & Alliance Management

16:45–17:00 – **Servier** – Didier Landais, Global Head of Licensing

Art of multitrack deal: Keys to maximizing the value of your company

14:45 - 15:45

Business Development

Level 1, Schubert 1/2

Pursuing multiple deal options in parallel will create the kind of competitive tension that will enable a company to achieve the fullest value for an asset or the company itself, whether the end result of that process is an asset sale, global or regional partnership, new round of investment, or M&A. Learn which companies can benefit from a multi-track, how to time the components, and how to position for a positive outcome.

Participants

Moderator: Lubor Gaal - Senior VP, Head of Europe, Locust Walk

Panelist: Hubert Birner - Managing Partner, TVM Capital Life Science

Panelist: Timothy Herpin - Chief Business Officer, Caribou Biosciences

Panelist: Jennifer Laird - VP, Search and Evaluation, Neuroscience, Eli Lilly and Company

Panelist: Øystein Soug - CEO, Targovax

Product development and market access: The transformational changes within China

14:45 - 15:45

Spotlight

Level 1, Schubert 4

The Asia Pacific region represents more than 50% of the world's population, one that needs to address its proliferation of common Western chronic diseases, a quickly expanding aging society, and health conditions unique to the area. This presents significant opportunities for companies that are able to meet the needs of these diverse patient groups. We will discuss how China's new economy biotechs are able to leverage the increasingly supportive regulatory environment, the large and hungry investor base, and the maturing ecosystem? What strategies are being used to gain access to this market that simultaneously represents developed and emerging markets? How are the players mastering regional and global markets? Leaders in this field share their insights on the best ways to navigate this evolving landscape.

Participants

Moderator: Debra Yu - Managing Director, China Renaissance

Panelist: Jun Bao - President and CEO, IMPACT Therapeutics

Panelist: Jay Mei - Chairman and CEO, Antengene

Panelist: John Xu - CEO and Cofounder, Jemincare Therapeutics Corp

Panelist: Jonathan Zhao - Executive Chairman, Transcenta

What's NEXT in NASH?

14:45 - 15:45

Therapeutic

Level 1, Schubert 5

NASH is fast growing into a global epidemic and is going to become the leading cause of liver transplants with the number of transplantable organs nowhere close to meeting this future demand. Will the industry succeed to deliver treatments for an emerging NASH pandemic in time? Europe, the US and Asia have brought forth a number of players in the space with about 195 treatments in the pipeline but currently there are no approved therapies and the lion's share of programs target the early stages of NASH. The market is pegged to hit \$25 billion by 2026 for the true winners of this race—first in class and best in class approaches—to take. This panel will look at what is next to come in NASH and what will truly make a difference in this devastating illness in the long run.

Participants

Moderator: Mario Brkulj - VP, MacDougall Biomedical Communications

Panelist: Manuel Baader - Deputy Head of Global BD&L, CardioMetabolic Diseases, Boehringer Ingelheim

Panelist: Marco Boorsma - General Partner, Forbion

Panelist: Pascale Jordan - Director, Business Development, External Evaluation, Promethera Biosciences

Panelist: Tuan Huy Nguyen - Chairman and Chief Scientific Officer, GoLiver Therapeutics

Towards the splendid city: Creating world-leading biotech companies in Europe

16:00 - 17:00

Business Development

Level 1, Schubert 1/2

Participants

Moderator: Vanela Bushi - Director, Strategy and Transactions, Syneos Health Consulting

Panelist: Regina Hodits - General Partner, Wellington Partners Life Sciences

Panelist: Peter B. Leone - Chief Business Officer, Bicycle Therapeutics

Panelist: Nerida Scott - VP, New Ventures and Transactions, Johnson & Johnson Innovation

Panelist: Jeff Wasserstein - Managing Director, Greenhill & Co.

Commercial opportunities and challenges in cell and gene: The keys to success

16:00 - 17:00

Spotlight

Level 1, Schubert 4

As clinical advances continue to be made and new treatments and potential cures are being developed, how can we ensure that patients will have access to these life-changing products? How are companies working together with government agencies to address regulatory, market access, and pricing issues? How are new guidelines such as RMAT designation facilitating the approval of new drugs? What types of novel pricing models are being developed to address the high costs of these products? Industry experts will discuss the new paths available for bringing these advanced therapies to market.

Participants

Moderator: Paolo Morgese - Director, EU Market Access and Member Relations, Alliance for Regenerative Medicine (ARM)

Panelist: Jeff Abbey - CEO, Novadip Biosciences

Panelist: Becky Buzzeo - Senior Director, Global Business Development - Biologics, Thermo Fisher Scientific, Pharma Services

Panelist: Roman Necina - Chief Strategist
Pharmaceutical Sciences, Takeda

Panelist: Peter Nell - VP, Strategy and Business Development, Casebia Therapeutics

Oncology positioning and partnering strategies: IO, non-IO, and everything in between!

16:00 - 17:00

Therapeutic

Level 1, Schubert 5

The clinical and commercial impact of anticancer immunotherapies cannot be overstated: Durable remissions in subsets of end-stage patients with immune checkpoint inhibitors and CAR-T therapies, and the ensuing influx of investment and partnering activity, have been astounding. With the dust starting to settle, however, it is becoming apparent that the path towards building upon such early IO successes will be anything but straightforward. In the meantime, more traditional “non-IO” approaches continue to generate therapeutic responses and revenues. Indeed, the recent successes of tumor-agnostic “basket” trials serve as powerful reminders of the potential for targeted therapies in the modern age. Pharmas are choosing different lanes where they believe they can win, with some shunning IO altogether while others choosing to go all-in with CAR-Ts, for example. Such strategies from bellwethers have an impact on how biotech and investors approach their own decisions, both in terms of where to invest and how to position themselves for success. Join us as we explore the trade-offs and implications of different positioning and partnering strategies being employed by pharma, biotech, and investors in what promises to be an important and exciting discussion for anyone looking to win in the massive but incredibly crowded oncology market.

Participants

Moderator: Joel Sandler - Associate Principal, Cello Health BioConsulting

Panelist: Soren Bregenholt - CBO, IO Biotech

Panelist: Emilio Erazo-Fischer - Deputy Head of Oncology BD&L, Boehringer Ingelheim

Panelist: Serge Sagodira - Head of Transactions, Debiopharm

BREAK AND BREATHE

16:05 - 16:25

Extra Activity

Level 1, Schubert 3

EXTRA ACTIVITY: BREAK AND BREATHE

Enhance your conference experience by using simple breathing techniques, movement and light stretches in order to charge your body and mind for better decision making and more energy throughout the day.

The breath is a source of life. By practicing special breathing techniques, we can fight diseases, stimulate the endocrine and autonomic nervous systems and purify the blood. These breathing techniques are designed to make the body fit and to handle stress in everyday life.

Open to all. No prerequisites required. Standing and seated (chair) positions only.

Power up partneringONE: Experienced

16:30 - 17:00

Power up partneringONE

Level 1, Business Suite 1

This session is for delegates familiar with partnering who want to up their game. Best practices for collaborating with colleagues, saving time, increasing response rates and acceptance rates will be discussed in terms of partneringONE, including new power features to support optimal partnering etiquette. Come away from the session with a clear understanding of how partneringONE can support your company to maximize ROI from partnering, at this and future events.

This session is being offered multiple times during BIO-Europe Spring. Each session is limited to 20 people. Please reserve your seat by adding the session to your personal agenda. If you can't attend a session, drop by the partnering help desk with any questions.

Participants

Speaker: Lisa Methley - Senior Director, Online Strategy, EBD Group

LOCATION:

HOFBURG Vienna

Heldenplatz 1

1010 Vienna

The Hofburg Vienna was the former winter residence of the Habsburgs, and boasts 54 staircases, 19 courtyards and 2,600 different rooms. The splendid Ceremonial Hall, designed as a throne room for Emperor Franz II/I, is a symphony of shapes and colors, along with the stunning Grand Staircase that leads to the conference halls. The ceiling paintings are also a breathtaking sight.

Ever since the Congress of Vienna in 1814/15, the Hofburg has been a regular venue for prominent international meetings, like the legendary encounter between the Presidents of the USSR and the United States, Nikita Khrushchev and John F. Kennedy, in 1961, or the signing of the SALT II Treaty by US President Jimmy Carter and Soviet President Leonid Brezhnev in 1979, or more recently the visit of Pope Benedict XVI in 2007. Hofburg Vienna can be called Europe's first address for international meetings.

17:00–19:00 Shuttle buses depart from the conference center to partner hotels.

18:30–19:15 Shuttle buses depart from the conference center to the evening event.

21:00–22:00 Shuttle buses depart from the evening event to all conference hotels.

New partnership and investment models

09:00 - 10:00
Startup Spotlight

Level 1, Schubert 1/2

With the entrance of new partners and investors, startups are not limited to seeking out VC funding to drive growth. Startups are advancing their research by partnering with patient advocacy groups, academia, innovation hubs, and other stakeholders. Instead of traditional funding, new models where partners are providing infrastructure, preclinical research support for stake in company, or expertise to offset costs are gaining momentum. Learn about the latest models and perhaps meet your match.

EXTRA ACTIVITY: BREAK AND BREATHE
Enhance your conference experience by using simple breathing techniques, movement and light stretches in order to charge your body and mind for better decision making and more energy throughout the day.

The breath is a source of life. By practicing special breathing techniques, we can fight diseases, stimulate the endocrine and autonomic nervous systems and purify the blood. These breathing techniques are designed to make the body fit and to handle stress in everyday life.

Open to all. No prerequisites required. Standing and seated (chair) positions only.

Grab & Go Lunch – Level 0, Hall A

What a partner wants

12:15 - 13:00

Startup Spotlight

Level 1, Schubert 1/2

Prior to the pitch, a startup must understand what potential partners and investors are looking for in their company. Why is your science relevant to a disease and how will you demonstrate your product claims? Who in your team has the experience to move a product through development and understand when you need outside help? What elements are obvious and what should companies be thinking about that's currently not on their radar?

Participants

Moderator: Giovanni Mariggi - Partner, Medicxi

Panelist: Julia Belaya - Director, Health and Startup Creasphere, Plug & Play

Panelist: Tim Haines - Managing Partner, Abingworth

Panelist: Julien Michaux - Managing Director, Norgine Ventures

Panelist: Katja Rosenkranz - Partner, V-Bio Ventures

Panelist: Paul-Peter Tak - Venture Partner, Flagship Pioneering

Plenary Session: A day in the life of experienced dealmakers

13:00 - 14:00

Plenary

Level 0, Lehar 3/4

Participants

Moderator: Evonne Sepsis - Founder and Managing Director, ESC Advisors

Moderator: Anton Gueth - Managing Director, EVOLUTION Life Science Partners

Panelist: Paul Biondi - Senior VP, Strategy and Business Development, Bristol-Myers Squibb

Panelist: Constantine Chinoporos - CBO, Boston Pharmaceuticals

Panelist: Philippe Lopes-Fernandes - Senior VP, Global Head, Business Development and Alliance Management, MERCK

Panelist: Chris Vlahos - Global Head, External Innovation, Rare Diseases and Neuroscience, Ipsen

Company Presentations

14:00 - 17:00

Company Presentations

Level 1, Schubert 4 & 5

Case study: Following the clients' demand: Expanding from Europe to the US

14:00 - 15:00

Additional Program

Level 1, Schubert 6

Having a global footprint paves the way to greater benefits, allowing for better coordination of resources and often surprising benefits for partners all along the production and supply chain. This session will examine international case studies to show how the follow-on effects of a new geographical base can impact production, supply, strategy, and partner relationships. Panelists will also examine the factors that need to be considered before, during and after the transaction in order to realize successful integration.

Participants

Moderator: Johannes Roebbers - Founder and CEO, Cilatus Biopharma Consulting AG

Panelist: Klaus Maleck - CEO, TETEC AG

Panelist: Bernd Muehlenweg - CBO, Nanobiotix

Panelist: Konstantin Petropoulos - VP, BD, Marketing and Sales, Leukocare AG

Panelist: Federico Pollano - Senior VP, Business Development, Rentschler Biopharma SE

Panelist: Marianne Spaene - Executive VP, Global Business Development, Marketing and Sales, Siegfried AG

Pushing the boundaries: Digital technologies transforming the biopharma value chain

14:15 - 15:45

Spotlight

Level 1, Schubert 1/2

There is little doubt that digital technology is transforming the entire biopharma value chain. Biopharma companies are using data analytics, big data, genomics, artificial intelligence and other digital technologies to bolster research and development, facilitate regulatory approval, speed time to market, find new ways to connect with patients and consumers, and measure the safety and effectiveness of therapies. This panel will dive into the opportunities and challenges that digital technologies present, exploring such questions as: What are the successful use cases for digital technologies in biopharma? What are the biggest challenges and risks? How can digital technologies be applied to the biopharma sector?

Participants

Moderator: Martin Pöhlchen - Senior Partner, Alira Health

Panelist: Etienne Bendjebbar - Business Development Associate, OWKIN

Panelist: Sarah Hogan - Partner, McDermott Will & Emery LLP

Panelist: Nora Khaldi - Founder and CSO, Nuritas

Panelist: Bernd Nosse - Global Head BD&L Technologies, Boehringer Ingelheim International GmbH

Panelist: Andreas Posch - Managing Director and CEO, Ares Genetics

SESSIONS

DAY 2 - 26/03/2019

BIO-Europe Spring

March 25–27, 2019

Messe Wien Exhibition and Congress Center
Vienna, Austria

Power up partneringONE: Essentials (plus Experienced)

16:00 - 17:00

Power up partneringONE

Level 1, Business Suite 1

This session is for delegates new to partnering. What can you expect from partnering, and what do others expect from you? Principles around timing, human nature, and partnering etiquette will be applied to the partneringONE process. The first 30 minutes will give you a clear understanding of tactics to generate the best ROI from partnering, at this and future events.

Those who stay for the full session will also hear the content from the Power up: Experienced session. The second half will cover methods for collaborating with colleagues, saving time, increasing response rates and acceptance rates, based on leveraging partneringONE's new power features.

This session is being offered multiple times during BIO-Europe Spring. Each session is limited to 20 people. Please reserve your seat by adding the session to your personal agenda. If you can't attend a session, drop by the partnering help desk with any questions.

Participants

Speaker: Lisa Methley - Senior Director, Online Strategy, EBD Group

LOCATION:

Gösserhalle
Laxenburgerstrasse 2B
1100 Vienna

Over 120 years old, Gösserhalle once served as a warehouse for Gösser Bier (from Styria), which was delivered in wooden barrels to taverns around Vienna by horse-drawn carriages. The charming venue with six architecturally unique spaces is a journey into Old World ambience in the center of Vienna.

17:00–19:00 Shuttle buses depart from the conference center to partner hotels.

18:30–19:15 Shuttle buses depart from the conference center to the evening event.

21:30–23:00 Shuttle buses depart from the evening event to all conference hotels.

Spotlight on Microbiome

Level 1 Schubert 6

Gain insights to the different approaches and latest collaboration models taking shape in the Microbiome arena.

Participants

Moderator: Philip Hemme - CEO, Labiotech.eu

Panelist: Michel de Baar - Executive Director, Business Development, Europe, MSD

Panelist: Isabelle de Cremoux - CEO and Managing Partner, Seventure Partners

Panelist: Georges Rawadi - CEO, LNC Therapeutics

HTA session/IGES: How does Europe set the price for a new drug?

09:00 - 10:00
Additional Program

Level 1, Business Suite 2

There is only one central approval for innovative drugs in Europe, but each European member state has its own pricing system. Per capita income, social security systems and medical guidelines vary from state to state. In this interactive workshop, we would like to explain how the health economic value of innovative medicines is assessed, how prices are determined and how small and mid-sized companies deal best with the European regulations and the different organizations at stake. Smaller and mid-sized biopharma companies are invited to join and discuss with the experts.

Participants

Moderator: Peter Braunhofer - Senior Expert, Value and Access Europe, IGES Group, Basel

Panelist: Patrick Schneider - Senior Expert, Pricing and Market Access Switzerland, Hölzle, Buri & Partner, Zug

Panelist: Claudia Wild - Director, Ludwig Boltzmann Institute for Health Technology Assessment, Vienna

Pre-Conference Workshop: Navigating the regulatory landscape for microbiome therapeutics

11:00 - 12:00
Additional Program

Part 1: What are the need-to-know regulatory, nonclinical and clinical-specific characteristics of microbiome products?

Speakers:

Peri Aghadiuno – EU Medical Director, Voisin Consulting Life Sciences

Clara Desvignes – Regulatory Scientist, Voisin Consulting Life Sciences

Cécile Rousseau – Director, Voisin Consulting Life Sciences

This workshop is a pre-event taste of the Microbiome Therapeutics conference which takes place March 28–29 here in Vienna, connecting the dots from discovery to commercialization. [See here for full workshop details for the two-day agenda Thursday and Friday, March 28–29.](#)

Trip to the Vienna BioCenter

Preliminary program

9:00 am – Bus pick up at Messe Wien

9:30 am – Welcome Valneva Austria GmbH

9:40 am – Vienna Business Agency and LISAvienna

10:00 am – Introduction Vienna BioCenter

10:20 am – Coffee break

10:40 am – Introduction Vienna BioCenter Core Facilities

11:00 am – Campus tour

12:15 pm - Networking lunch with companies and institutes from Vienna Biocenter

1:30 pm - Bus back to Messe Wien

Boehringer Ingelheim Tour

09:00 - 13:30
Site Tour 2

Boehringer Ingelheim invites you to tour its facility in Vienna on Thursday, March 28th

Boehringer Ingelheim, one of the world's leading contract development and manufacturing organizations for biopharmaceuticals invites you to tour its facility in Vienna on Thursday, March 28th. A bus pick-up will be at Messe Vienna at 9:00 a.m.

This is a chance to explore and witness our biopharmaceutical manufacturing, highest quality standards and overall excellence. In addition, you will have the opportunity to meet with site and technology experts, and discuss potential partnerships.

The guided tour of the Boehringer Ingelheim state-of-the-art facility will show you our core capabilities as center of excellence in process development and manufacturing of biopharmaceuticals using microbial based technologies.

With the currently ongoing constructions to establish a large scale cell culture facility the site will be the only member in Boehringer Ingelheim's biopharmaceutical manufacturing network offering various manufacturing technologies. Visitors will gain insights into both capabilities of Boehringer Ingelheim RCV. For more information please visit www.boehringer-ingelheim.at

Following the tour and prior to returning by bus back to Messe Vienna at 01:30 pm, you will have the chance to further network over lunch.

Space is limited so RSVP today at office@LISAvienna.at!
