

BUILDING HEIGHTS:

The maximum height of booth construction depends on your booth size:

6-10 sqm non-island, Inline, end of row, corner and peninsular booths with back and side walls	The maximum height of booth construction is 2.50 m. Hanging signs are not permitted.
12-18 sqm non-island booths, peninsular booths, with back and side walls	The maximum height of booth construction is 2.50 m at the back wall. With a minimum distance of at least 2 m towards the back wall, a maximum height of 3 m is permitted. Otherwise, extended heights and hanging signs are not permitted.
20 sqm and larger island booths only	The maximum height of booth construction is 4.50 m. The maximum height for hanging signs is 7 m (highest point).

SHELL SCHEME BOOTHS – DESIGN

Please be considerate of your neighbour and **do not extend the partition panels** of your shell scheme booth by using pop up-walls, wooden constructions etc.

SPACE ONLY BOOTHS – INDIVIDUAL BOOTH DESIGN

To create an open environment for the exhibition, please note that **only 1/2 of any side of a booth bordering an aisle may be enclosed.**

In the event EBD's design rules differ from the Messe Hamburg Technical Guidelines, the terms of the EBD rules shall prevail.

If you plan a customized booth design, you require a **2-step approval:**

1. **All individual booth designs** must be reviewed by the **EBD** exhibit team. Please send the drawings incl. measurements to your exhibit liaison by **September 16th.**

2. **For technical approval**, please send:

- a. individual booth designs incl. measurements
- b. Risk Assessment (if you do not have an English one please use the template on our website)
- c. Acceptance of Technical Regulations

to our Health & Safety partner **Abraxys by September 20th**. For more details please read the section “Compulsary Health and Safety” within the online **exhibitor manual** or contact your exhibit liaison.
